

# PROpilot : « pilots everything for your water »

**Use :** 2 in 1 pH and chlorine regulator for pools up to 280m<sup>3</sup>

**Comes with the 2-in-1 probe holder + 1 year warranty on the probes !**

**Complete kit :**  
A pH and redox installation kit including two 2-in-1 probe holders, the pH and redox probes and the drilling tool.

## INNOVATIVE

- PROpilot regulates simultaneously the pH and the chlorine levels\*
- It displays simultaneously the pH and the redox (chlorine level) values.

## MULTIPURPOSE

- Designed for private ou public pools
- Built-in pH pump\*\*:
    - 1,5 l/h → private : up to 150m<sup>3</sup>  
public : up to 100m<sup>3</sup>
    - 3 l/h → private : up to 280m<sup>3</sup>  
public : up to 180m<sup>3</sup>
  - Chlorination : choose the suitable mean of chlorination (salt chlorinator, dosing pump, etc.)

## SECURE

- Volumetric alarm avoiding emptying of the chemical tank
- Adjusts the dosing depending on the pH and chlorine chemical needs

\* For a correct redox measure, ensure that the pool stabilizer level is under 15ppm (15mg/l)  
\*\* incompatible with hydrochloric acid
