

PANpilot : « pilots everything for your water »

Use : regulates pH and chlorine or Brome by the Redox*, for pool since to 150 m3.

pH :**
Dosing pump 1,5 l/h*

Taken out Chlorine or Bromine: Taking of exit pre-fed with 230 Vac

Practice: the light into the panel to hide the sons behind.

Panel dimensions
58 x 38 x 15 cm

Room of analysis with gate of taking of sample and detection of flow.

Special Offer
Connect the PANpilot to the web, and AVADY will set it for you from distance.

Free web access
No setting needed. AvadyConnect is linked to internet by a cable. PROpilot communicates by radio with the AvadyConnect (50 m maxi). Only one table to manage all your pools. Change from distance PROpilot's parameters, and receive lack chemical alerts, data history and graphs. Visit www.avadyconnect.com –ID demo – password: demo

Supplied kit of installation

INNOVATIVE

- The PROpilot regulate pH and chlorine or Brome at the same time*.
- It's shows simultaneously the value redox and pH

POLYVALENT

- Adapted to public (90 m³) and private to 150 m³ pool.
- Its exit chlorinates or bromine can overcome a dosing pump or a solenoid valve (230Vac)

SAFE

- Volumetric alarm preventing all chemical tanks emptying.
- Proportionally dose on demand the pH and chlorine.

* So that the redox measure works well, watch that the pond has a rate of stabilizing not overtaking 15 ppm (15mg / l)
** Incompatible with the hydrochloric acid
