

PROfitness®

Simultaneously regulates pH and chlorine levels (ppm)

Suitable for public spas, paddling pools, balneotherapy facilities and aqua-bike cabins

Public
pools

Hot
tubs

- Live display of the **pH value** and of the **chlorine content (in ppm)**

- Supplied with two 0.5 l/h peristaltic pumps for pH and chlorine dosage

HIGH PERFORMANCE

- Reaches 20% of the target chlorine level in one minute
- Measures pH and the concentration of free chlorine
- Closed amperometric sensor (not sensitive to pH) compatible with stabiliser (up to 80 ppm)
- Temperature optional

SIMPLE

- Pre-assembled panel that is easy to wall-mount using the installation accessories provided

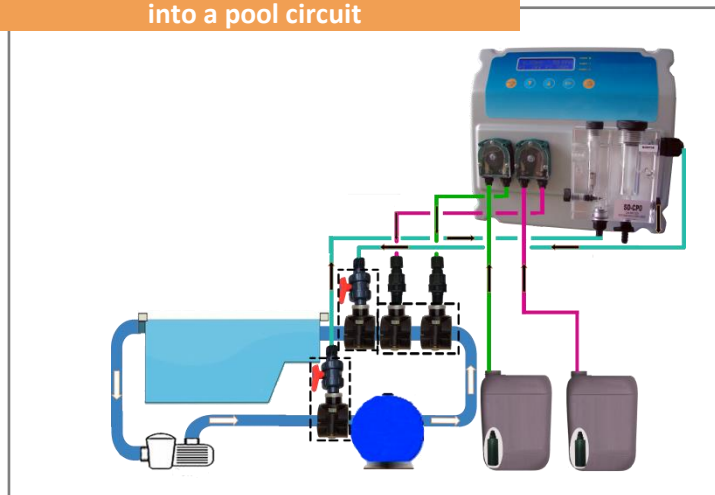

ACCURATE

- Measurement scales: pH from 0 to 14 and chlorine from 0 to 5 ppm.

WARRANTY

- Device: two years

Example of incorporation of PROfitness into a pool circuit

- Supplied with a **complete kit** for quick and easy installation:
