

# CRISTALstop® injector for 2 in 1 probe holder

Limit the crystallization in the chlorine injection point  
and increase the peristaltic pump lifetime.

- The CRISTALstop® injector  
fit on the AVADY 2 in 1 probe holder (ref:AYFA00011).

Our tests with partners show us on some site that usually have crystallization after 3 weeks, the CRISTALstop® injector installation repel this delay to 3 months.

AYFA0006

- CRISTALstop® injector maintain kit:

- spare valve, if this one no longer closes by itself because of its usury.
