

PANchambre pH Rx

- Private pools
- Public pools
- Private hot tubs

Wall-mounted analysis chamber for pH, Rx and flow

- pH**
 - Position of pH sensor (electrode not provided)
- Rx Cl/mV**
 - Position of redox sensor (electrode not provided)
- Flw**
 - Optional: Flow rate control (flow switch)

- Panel dimensions: 17 x 15 cm
- Sampling valve for manual analyses

INNOVATIVE

- The analysis chamber is very compact, and may or may not comprise the flow detector.
- It incorporates three functions: chlorine measurement by means of redox, pH, and optional flow rate detection (flow switch)

VERSATILE

- Suitable for use in hot tubs as well as public and private pools

SAFE

- Flow switch function, if option selected

- Supplied with a **complete kit** for quick and easy installation:

AYAC100611
AYAC100610 (Flow)
