

PANduo pH[®] Rx

Simultaneously regulates pH and chlorine levels (mV)
 Suitable for guest houses, gîtes, residential complexes (1 to 2 people / 10m³ / day).

Private pools

Public pools

• pH and chlorine dosage:
 PANduo pH[®] Rx activates the pumps integrated in the device.

• Quiet peristaltic pumps:
 - pH (1,5L/h)
 - Cl (3L/h)

• Professional analysis chamber:
 - Redox sensor
 - pH sensor
 - Flow detection
 - Sampling valve

INNOVATIVE

- PANduo pH[®] Rx régule simultanément le pH(*) et le chlore(**).
- It simultaneously displays the redox (in mV (chlorine)) and the pH value.
- The sensor is protected against induced electric currents in the water.

SAFE

- Volumetric alarm preventing the chemical container running dry.
- Dosage proportional to pH and chlorine requirements.
- Jack input connectors for detection of empty pH and chlorine containers.

VERSATILE

- Adjustable dosage for regulation in small and large volumes.
- Intended for private pools with integrated pumps up to 150 m³ and public basins up to 90 m³.
- Suitable for an attendance of 1 to 2 people / 10m³ / day.

WARRANTY

- Device: two years | Sensors: one year.

AvadyConnect[®] Web Interface

Device predisposed to receive the **AVADYCONNECT[®]** option to remotely consult and control pool related data.

ADVANTAGE A single dashboard to remotely manage the maintenance of all your pools. You can now remotely change device settings, receive low level of product alerts, check data history and graphs etc.

Discover our web interface at www.avadyconnect.com; username and pw: demo

AYAC100383

* Incompatible with hydrochloric acid

** To ensure correct redox measurement, make sure that the stabiliser content in the pool does not exceed 15 ppm (15 mg/l).
