AVADY'S COMMITMENTS

🌿 Reliable equipment for liquid chlorine treatment

🌿 The chlorine disappears automatically after a few days

🌿 The water in the pool can then be reused for daily needs (watering for instance)

🌿 Large cities already use chlorinated water for watering green spaces (Toulouse, Limoges, Niort): water treated with liquid chlorine becomes ecological precisely because it is recyclable and reusable.

SUMMARY

Private Pools
Public Pools

Device	Pool Volume	Private SPAS	Public SPAS	O2	RX (Cl/mv)	Cl (ppm, mg/l)	pH

FOCUS ON : DUO pH/Rx

Suitable for pools from 1 to 150 m3

The DUO pH Rx will be your best ally to enjoy your pool with peace of mind.
This combined regulator takes care of adjusting the quality of your water thanks to its two integrated pumps.

Simultaneous regulation of pH
and chlorine according to the needs of the pool

Has a volumetric alarm
to prevent emptying and an adjustable overdose alarm

Device: 2 year warranty
Probe: 1 year warranty

Quick and easy installation and setup
thanks to the complete kit offered, including
two 2in1 probe holders.
The 2in1 probe holder is an innovative universal accessory that can be installed in all configurations.
(DN50/DN63/horizontal/vertical)

Eco-friendly: the chlorine disappears and leaves
no residue/ the water can be reused for your
daily and domestic needs

Scan
to discover the product in video and
download its technical data sheet!

TEMPO UV®

Universal timed doser, which injects active oxygen, chlorine or flocculant.

Suitable for pools ≤ 150m³ (O²) | ≤ 80m³ (chlorine)

TEMPO UV® and its complete kit	AYPO15003

PRIM® pH or Rx

Proportionally regulates the pH- or pH+ or the chlorine concentration (mV) of the pool in the Rx version.

The pump stops dosing if the value is too low or too high and displays the status.

Suitable for pools from 10 to 120m³ (pH) | From 10 to 60m³ (chlorine)

PRIM® pH and its complete kit	AYPO15001
PRIM® Rx and its complete kit	AYPO15002

ChloriProtect® Rx

Secures the chlorine production of the salt water chlorinator and protects equipment such as bar covers, roller shutters or liners.

Displays the chlorine level in mV.

Chloriprotect® Rx and its complete kit	AYPO15009

Find all our equipment for private pools!

POOLeasy® pH/Rx

Automatically regulates pH or chlorine (mV).

Equipped with a 2-in-1 probe holder that can be installed horizontally or vertically and fits diameters 50 and 63.
Volumetric alarm to avoid emptying the chemical container.

Suitable for pools from 1 to 150m³ (pH version) | From 1 to 80m³ (Rx version)

POOLeasy® pH and its complete kit	AYPO16001
POOLeasy® Rx and its complete kit	AYPO16003

PROpilot pH® Rx

Simultaneously regulates pH and chlorine (mV).

External chlorine injection via activation of either a pump, an electrolyser or a solenoid valve.
Equipped with two 2-in-1 probe holders that can be installed horizontally or vertically and fit diameters 50 and 63.
Volumetric alarm to prevent emptying of the chemical canister.

Optional AvadyConnect® communication kit: data consultation and remote control on www.avadyconnect.com (p18).

Suitable for pools from 1 to 150m³ (1.5L/h) | From 1 to 280m³ (3L/h)

Avady Connect Option

PROpilot pH® Rx 1,5L/h and its complete kit	AYPO16002
PROpilot pH® Rx 3L/h and its complete kit	AYPO16004
Avady Connect® Kit Option	AYAC100524

Find all our equipment for private pools!

DUO pH Rx (1,5-3L/h)

Regulates and injects pH and chlorine simultaneously (mV).

Integrated pumps: pH 1.5L/h and chlorine 3L/h.
Equipped with two 2-in-1 probe holders that can be installed horizontally or vertically and adapt to diameters 50 and 63.
Volumetric alarm to prevent emptying of the chemical container.

Optional AvadyConnect® communication kit: data consultation and remote control on www.avadyconnect.com (p17).

Suitable for private pools ≤ 150m³.
Suitable for public pools ≤ 90m³.
Suitable for guest houses, residences.

Avady Connect Option

DUO pH Rx (1,5-3L/h) and its complete kit	AYPO16132
Avady Connect® Kit Option	AYAC100524

DUO pH Turboxy (1,5-3L/h)

Regulates and injects pH and chlorine simultaneously (ppm - amperometric probe).

Turboxy probe: water temperature display + flow rate measurement
Integrated pumps: pH 1.5L/h and chlorine 3L/h.

Equipped with a 2-in-1 probe holder that can be installed horizontally or vertically and fits diameters 50 and 63.
The Turboxy probe flange is suitable for horizontal DN50 installation only or use the Turboxy remote tube kit.
Volumetric alarm prevents emptying of the chemical container.

Optional AvadyConnect® communication kit: data consultation and remote control on www.avadyconnect.com (p18).

Suitable for private pools from 15 to 150m³, public pools from 15 to 90m³, hotels, residences.

Avady Connect Option

Duo pH Turboxy (1,5-3L/h) and its complete kit	AYPO16126
Avady Connect® Kit Option	AYAC100524

PANduo pH Rx (1,5-3L/h)

Regulates and injects pH and chlorine simultaneously (mV).

Integrated pumps: pH 1.5L/h and chlorine 3L/h.
Optional water temperature.
The analysis chamber allows for easy monitoring and maintenance.
The sampling system facilitates manual analysis.
Volumetric alarm prevents emptying of the chemical container.

The unit is predisposed to receive the AvadyConnect® option: data consultation and remote control on www.avadyconnect.com (p18).

Suitable for private pools ≤ 150m³.
Suitable for public pools ≤ 90m³.
Suitable for guest houses, residences.

Avady Connect Option

PANduo pH Rx (1,5-3L/h) and its complete kit	AYPA1221
Avady Connect® Kit Option	AYAC100524

PANduo pH Turboxy (1,5-3L/h)

Regulates and injects pH and chlorine simultaneously (ppm - amperometric probe).

Integrated pumps: pH 1.5L/h and chlorine 3L/h.
Turboxy probe: water temperature display + flow detection.
The analysis chamber allows simplified monitoring and maintenance and optimal use of the Turboxy probe.
Its sample collection facilitates mandatory manual analyses.
Volumetric alarm prevents emptying of the chemical container.

The unit is prepared to receive the AvadyConnect® option: data consultation and remote control on www.avadyconnect.com (p18).

Meets the requirements dictated by the French Health Agency (ARS).
Suitable for private pools ≤ 150m³.
Suitable for public pools ≤ 90m³.
Suitable for hotels, residences.

Avady Connect Option

PANduo pH Turboxy (1,5-3L/h) and its complete kit	AYPA1216
Avady Connect® Kit Option	AYAC100524

PANduo pH CLM (1,5-1,5L/h)

Simultaneously regulates and injects pH and chlorine (ppm - amperometric probe / membrane).

Integrated pumps: pH 1.5L/h and chlorine 1.5L/h.
Optional water temperature.
The analysis chamber allows easy monitoring and maintenance.
The sampling system facilitates mandatory manual analyses.
Volumetric alarm prevents emptying of the chemical container.

The unit is predisposed to receive the AvadyConnect® option: data consultation and remote control on www.avadyconnect.com (p18).

Meets the requirements dictated by the French Health Agency (ARS).

Suitable for public pools and spas ≤ 30m³.
Suitable for hotels, residences

Avady Connect Option

PANduo pH CLM (1,5-1,5L/h) and its complete kit	AYPA1219
Avady Connect® Kit Option	AYAC10052
Temperature Option	AYAC100605

PANpilot pH Rx S20 (3-8L/h)

Regulates and injects pH and chlorine simultaneously (mV).

Integrated pumps: pH 3L/h and chlorine 8L/h.
Combines the best of metering pump technology; peristaltic for pH and electromagnetic for chlorine (mV).
Optional water temperature.
The analysis chamber allows easy monitoring and maintenance.
The sampling chamber facilitates mandatory manual analysis.
Volumetric alarm prevents emptying of the chemical container.

The unit is predisposed to receive the AvadyConnect® option: data consultation and remote control on www.avadyconnect.com (p18).

Suitable for private pools from 30 to 300m³.
Suitable for public pools from 30 to 220m³.
Suitable for campsites, hotels, residences and requiring little stabilizer

Avady Connect Option

PANpilot pH Rx S20 (3-8L/h) and its complete kit	AYPA1207
Avady Connect® Kit Option	AYAC100524
Temperature Option	AYAC100605

PANpilot pH Turboxy S20 (3-8L/h)

Avady Connect Option

Regulates and injects pH and chlorine simultaneously (ppm - amperometric probe).
amperometric probe).

Integrated pumps: pH 3L/h and chlorine 8L/h.
Combines the best of dosing pump technology; peristaltic for pH and electromagnetic for chlorine (ppm).
Turboxy probe: Water temperature display + flow detection.
The analysis chamber allows simplified monitoring and maintenance as well as an optimal use of the Turboxy probe.
Its sample collection facilitates the obligatory manual analyses.
Volumetric alarm prevents emptying of the chemical container.

The unit is predisposed to receive the AvadyConnect® option: data consultation and remote control on www.avadyconnect.com (p18).
Meets the requirements dictated by the French Health Agency (ARS).

Suitable for private pools ≤ 300m^3.
Suitable for public pools ≤ 220m^3.
Suitable for campsites, hotels, residences.

PANpilot pH Turboxy S20 (3-8L/h) and its complete kit	AYPA1217
Avady Connect® Kit Option	AYAC100524

PANmagnet® pH Rx S20 (8-8L/h)

Regulates and injects pH and chlorine simultaneously (mV).

Integrated pumps: pH 8L/h and chlorine 8L/h.
Robust electromagnetic pumps.
Pumps equipped with a noise reduction device.
Analysis chamber allows for easy monitoring and maintenance.
The sampling chamber facilitates manual analysis.
Volumetric alarm prevents emptying of the chemical container.

Suitable for private pools from 30 to 450m^3.
Suitable for public pools from 30 to 250m^3.
Suitable for campsites, hotels, residences requiring little stabilizer.

PANmagnet® pH Rx S20 (8-8L/h) and its complete kit	AYPA1009

Physico pH® Rx

Simultaneously regulates pH, chlorine or bromine (mV).

Optional water temperature.
The analysis chamber allows easy monitoring and maintenance.
The sampling system facilitates manual analysis.
Volumetric alarm prevents emptying of the chemical container.

The unit is predisposed to receive the AvadyConnect® option: data consultation and remote control on www.avadyconnect.com (p18).
Meets the requirements dictated by the French Health Agency (ARS).

Suitable for public pools up to 1500m³.

Avady Connect Option

Physico pH® Rx and its complete kit	AYPA1212
Avady Connect® Kit Option	AYAC100524
Temperature Option	AYAC100605

Physico pH® Turboxy

Regulates and injects pH and chlorine simultaneously (ppm - amperometric probe).

Turboxy probe: water temperature display + flow detection.
The analysis chamber allows simplified monitoring and maintenance as well as optimal use of the Turboxy probe.
Its sample collection facilitates mandatory manual analyses.
Volumetric alarm prevents emptying of the chemical container.

The unit is predisposed to receive the AvadyConnect® option: data consultation and remote control on www.avadyconnect.com (p18).
Meets the requirements dictated by the French Health Agency (ARS).

Suitable for public pools up to 1500m³.

Avady Connect Option

Physico pH® Turboxy and its complete kit	AYPA1202
Avady Connect® Kit Option	AYAC100524

Physico pH® CLM

Simultaneously regulates pH and chlorine (ppm - amperometric probe / membrane).

Optional water temperature.
The analysis chamber allows easy monitoring and maintenance.
The sampling chamber facilitates mandatory manual analysis.
Volumetric alarm prevents emptying of the chemical container.

The unit is predisposed to receive the AvadyConnect® option: data consultation and remote control on www.avadyconnect.com (p18).
Meets the requirements dictated by the French Health Agency (ARS).

Suitable for public pools ≤ 1500m³.
Suitable for campsites, hotels, residences, balneo...

Avady Connect Option

Physico pH® CLM and its complete kit	AYPA1218
Avady Connect® Kit Option	AYAC100524
Temperature Option	AYAC100605

PUMPS

PeriFix Pump
Compact, reliable and easy to use peristaltic dosing pump (not compatible with hydrochloric acid)

PeriFix 1,5L/h and its complete kit - up to 50 m³	AYPO15017
PeriFix 3L/h and its complete kit - up to 80 m³	AYPO15020

MAGNET Pumps
Electromagnetic dosing pumps, which, coupled with a pH or chlorine regulator, allow the automatic dosing of products used in the treatment of swimming pools water. Acid-proof, reinforced polypropylene housing. Easy to use and maintain

MAGNET S10 2L/h 3 bars and its complete kit ▪ up to 60m³ (in); 40m³ (out)	AYPO241002039A020
MAGNET S10 6L/h 3 bars and its complete kit ▪ up to 180m³ (in); 120m³ (out)	AYPO241006039A020
MAGNET S20 8L/h 3 bars and its complete kit ▪ up to 300 m³ (in); 120 m³ (out)	AYPO231008039C030
MAGNET S20 12L/h 3 bars and its complete kit ▪ up to 400 m³ (in); 360 m³ (out)	AYPO231012039C010
MAGNET S40 50L/h 3 bars and its complete kit ▪ up to 1500m³	AYPO281050037C010

pH/Rx INSTRUMENTS Pumps
Electromagnetic dosing pumps, which allow to dose proportionally to the demand, products used in the treatment of swimming pool water. Backlit display.
Acid-proof reinforced polypropylene housing. Easy to use and maintain.

MAGNET S20 pH 8L/h and its complete kit ▪ up to 480m³	AYPO232008039A010
MAGNET S20 Rx 8L/h and its complete kit ▪ up to 250m³	AYPO233008039A010

CONNECTED EQUIPMENT

AvadyConnect® Communication Kit

The AvadyConnect® communication kit allows remote monitoring and control of the water treatment equipment parameters for an easy managemen of swimming pools, via the dedicated web interface www.avadyconnect.com.

The kit is composed of two elements:
- A box to be connected to the Ethernet network, allowing a radio communication
communication (AvadyConnect® option)
- An extension to be implanted in the device to allow communication with the AvadyConnect® option

Compatible products: PROpilot pH® Rx (1.5l/h) / PROpilot pH® Rx (3l/h) / DUO pH® Rx (1.5-1.5l/h) / DUO pH Turboxy (1.5L/h-3L/h) / Pannels except PANmagnet

Avady Connect® Kit Option	AYAC100524

Remote control and monitoring:
- Water regulation; pH, Chlorine,
- Low level of treatment products,*
- Temperature*,
- Operation of the filtration pump and booster*,
- Lighting*,
- The state of the equipment: shutters*,
- E-mail alert, advice.
* Depending on the device connected.

EXCLUSIVE AVADY ACCESSORIES

2in1 Probe Holder

Single point for measurement and injection.
Probe 100% protected by the Probe Holder tube.
A winterization plug replaces the probe in the Probe Holder.
Suitable for diameters 50 and 63.
Horizontal or vertical mounting.

2in1 Probe Holder	AYFA00011

CRISTALstop® Injector

Suitable for the 2 in 1 Probe Holder.
Delays crystal formation at the chlorine injection point.
Increases the life of the peristaltic pump.
CRISTALstop® Injector	AYFA00006
CRISTALstop® (x3) Maintenance Kit	AYAC100502

Turboxy® Probe

The only amperometric probe capable of being installed directly on pipe.
Chlorine measurement in ppm.
Stabiliser tolerance up to 40ppm.
Very easy to maintain.

Innovation Award
Lyon 2016

Turboxy® Amperometric Probe	AYAC08F00

Scan to discover our exclusive accessories!

Turboxy® Remote tube kit

Facilitates the installation of the Turboxy probe and allows installation in DN63. Allows to control the speed of water flow through the Turboxy probe.

This kit is strongly recommended for an optimal use of the Turboxy® probe. It allows the correction of many problems such as a too low flow rate, head loss, or lack of space in the pipe.

Turboxy® Remote tube kit	10000020

Analysis chamber for Turboxy® pH and chlorine probes

Allows better management of the Turboxy® probe.
Allows sampling as close as possible to the probes.
* Probes not supplied
Analysis chamber for Turboxy® pH and chlorine probes	AYAC100486

Analysis chamber for pH and Redox probes

Allows sampling as close to the probes as possible.
* Probes not supplied

Analysis chamber without flow controller and its complete kit	AYAC100518
Analysis chamber with flow controller and its complete kit	AYAC100519
