Pool list.

PROpilot values	Web configuration
SETPOINT VALUE: 1.4	lb.entity.high_alarm: Yes
TYPE OF OUTLET: External pump	lb.entity.low_alarm: Yes
PUMP FLOW RATE: 1.5 L/h	lb.entity.lvl_alarm: No
ACTIVATION TYPE: PROPORTIONAL	
PUMP ACT. TIME: 40 s @ 1Cl	
OVERDOSING ALARM: 2.50 L/h	
ALARM DISABLED: OFF	
READING: 0.00 Cl	
ADJUSTMENT:	
OVERDOSING ALARM: No	

From distance managed pH and chlorine.

Data History.

17 April 2018 11:58

Current pH: 7.3 pH (OK)

Current chlorine content: 1.4 Cl (OK)

Current temperature: 32.5°C (Active)

lb flowrate: 11.2 m³/h

Additional indicators: pH level: OK, Rx level: OK, Filtration status: Active

On a single look :

Green parameters = Pleasant swim!

Find out more about the interface on www.avadyconnect.com with « demo » for id and password.

Professional user advantages:

- Proactive : Parameters and history studying to prevent any problem and quick action if the customer see a maladjustment.
- Customer loyalty : transparency, relationship of trust established, additional sales...

Connected devices for simplified pool management.

AvadyConnect® Option

The AvadyConnect® option, consisting of a box to be connected to the Ethernet network, allows remote control and monitoring of water treatment equipment parameters for easy pool management, via the dedicated web interface www.avadyconnect.com.

For devices predisposed to receive the option.

(1 pool = 1 AvadyConnect® box)

Compatible devices : PANduo pH Turboxy – DUO pH Turboxy – PANduo pH CLM – PANpilot pH Rx S20 – PANpilot pH Turboxy – Physico pH Rx – Physico pH Turboxy – Physico pH CLM

| AYAC100483

AvadyConnect® communication kit

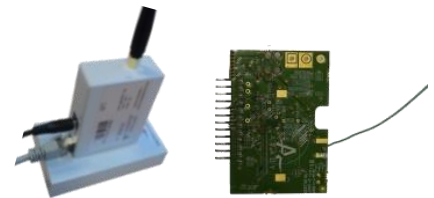

The AvadyConnect® communication kit allows remote control and monitoring of water treatment equipment parameters for easy pool management, via the dedicated web interface www.avadyconnect.com.

It consists of a housing for radio communication and an extension to be installed in the device.

Compatible device : PROpilot pH RX – DUO pH Rx – DUO Side pH Rx - PANpilot

| AYAC100524

AvadyConnect® extension

Extension to be installed inside the device to enable connection to existing Avadyconnect® network.
