

# 2 in 1 probe holder

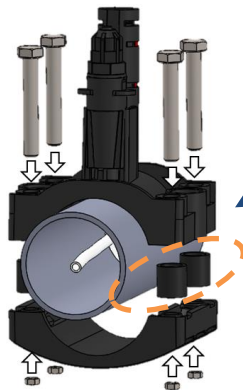

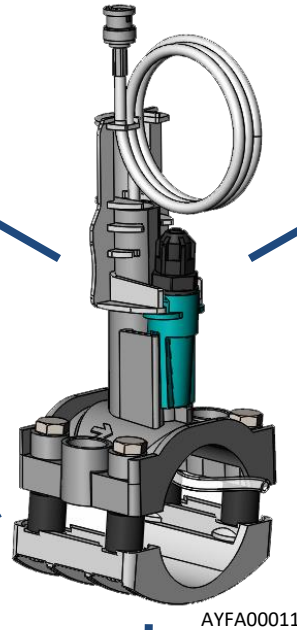

The exclusive 2-in-1 Probe Holder protects the probes from impact and makes it easy to install the device.

Horizontal or vertical mounting

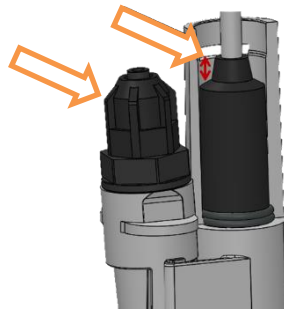

A probe 100% protected by the probe holder tube

DN50 or DN63 pipe

Supplied with a plug for easy wintering and maintenance

Simplified installation with a single point for measurement and injection

## Associated product :

### CRISTALstop® 2 in 1 injector (AYFA00006)

Once fitted to the 2-in-1 probe holder, it pushes crystallisation away from the injection point. On certain sites, the appearance of crystallisation has been reduced from 3 weeks to 3 months with the CRISTALstop® injector.
