

# PROpilot® Salt/pH

**Combines saltwater chlorination and proportional pH control**

*Suitable for pools from 45 to 175m<sup>3</sup> depending on the model*

- Low Salt/Normal Salt compatible
  - LCD display with soft-touch interface and quick access keys
- Displays water temperature, salt level and cell life
  - Bluetooth connectivity
- Integrated silent peristaltic pump

Private Pools

Scan to find out!

## INNOVATIVE

- Power Control technology for stable chlorine production in all circumstances (worn cell, low salt, etc.)
- Production mode adjustable at installation for operation from **1.5 g/L in Low Salt (LS)** or **2.5 g/L in Normal-Salt (NS)** with no upper limit
- Bluetooth remote control with mobile app

## SAFETY

- Electrolysis safety devices: lack of water, low salt and cell fault
- pH safety devices: setpoint not reached, setpoint ranges exceeded and pH overdose.
- Alarms indicated by written messages
- Cell diagnostic mode for easy maintenance

## COMPLETE

- Supplied with a high-quality transparent cell to accommodate a flow sensor (optional), pH injection, and a 2in1 probe holder!

## EFFICIENT

- Proportional pH control in acid (pH-) or base (pH+) mode
- Automatic self-cleaning of the cell by polarity inversion adjustable according to water hardness
- Automatic wintering and restart of the chlorinator from 15°C
- Boost mode for superchlorination for 24 hours
- Shutter mode to modulate chlorine production according to the position of the cover

## EVOLUTIVE

- Optional flow sensor
- ORP kit to automatically control chlorine production according to the pool's needs, available as an option

## WARRANTY

- Device : 2 years | Cell : 3 years | pH probe : 1 year
