- Live display of the pH value
or
of the redox (chlorine) value in mV

pH

Rx
Cl/mV

INNOVATIVE

- Adapts dosage of chemicals according to requirements.
- The sensor is protected against induced electric currents in the water.

SAFE

- Volumetric alarm preventing the chemical container running dry.

COMPLETE

- Delivered with a **complete kit** for quick and easy installation :

VERSATILE

- pH* regulator with the pH kit or chlorine** regulator with the chlorine kit.
- The sensor holder provided can be mounted horizontally or vertically.
- Up to 150 m3 (pH) ; up to 80 m3 (Rx).

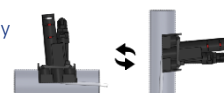

* Incompatible with hydrochloric acid

** To ensure correct redox measurement, make sure that the stabiliser content in the pool does not exceed 15 ppm (15 mg/l).

WARRANTY

- Device: two years | Sensor: one year

- A single location for measurement and injection
- Sensor fully protected by the sensor holder tube
- Compatible with DN50 and DN63 pipes
- A winterisation plug is provided to replace the sensor in the sensor holder.
- Horizontal or vertical assembly
